	signs	two-digit numbers times one-digit numbers, using mental and progressing to formal written methods (appears also in Mental Methods)		divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context	divide numbers up to 4-digits by a two-digit whole number using the formal written method of short division where appropriate for the context divide numbers up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context use written division methods in cases where the answer has up to two decimal places (copied from Fractions (including docimals)
	PROPERTIE	S OF NUMBERS: MULTIPLES,	FACTORS, PRIMES, SQUARE A	ND CUBE NUMBERS	decimals))
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
			recognise and use factor pairs and commutativity in mental calculations (repeated)	identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers. know and use the vocabulary of prime numbers, prime factors	identify common factors, common multiples and prime numbers use common factors to simplify
				and composite (non-prime) numbers establish whether a number up to 100 is prime and recall prime numbers up to 19	fractions; use common multiples to express fractions in the same denomination (copied from Fractions)
				recognise and use square numbers and cube numbers, and	calculate, estimate and compare volume of cubes and cuboids using standard units, including

				the notation for squared $\binom{2}{}$ and cubed $\binom{3}{}$	centimetre cubed (cm ³) and cubic metres (m ³), and extending to other units such as mm ³ and km^{3} (copied from Measures)
		ORDER	OF OPERATIONS		
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
					use their knowledge of the order of operations to carry out calculations involving the four operations
		INVERSE OPERATIONS, EST	TIMATING AND CHECKING AN	SWERS	
		estimate the answer to a calculation and use inverse operations to check answers (copied from Addition and Subtraction)	estimate and use inverse operations to check answers to a calculation (copied from Addition and Subtraction)		use estimation to check answers to calculations and determine, in the context of a problem, levels of accuracy

Number: Fractions, Decimals and Percentages

		COUNTING IN FF	ACTIONAL STEPS		
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	Pupils should count in fractions up to 10, starting from any number and using the1/2 and 2/4 equivalence on the number line (Non-	count up and down in tenths	count up and down in hundredths		
	Statutory Guidance)	DECOCNISIN	G FRACTIONS		
recognise, find and name a half as one of two equal parts of an object, shape or quantity	recognise, find, name and write fractions $\frac{1}{3}, \frac{1}{4}, \frac{2}{4}$ and $\frac{3}{4}$ of a length, shape, set of objects or quantity	recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators recognise that tenths arise from dividing an object into 10 equal parts and in dividing one – digit numbers or	recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten	recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents (appears also in Equivalence)	
recognise, find and name a quarter as one of four equal parts of an object, shape or quantity		quantities by 10. recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators			
			G FRACTIONS		
		compare and order unit fractions, and fractions with the same denominators		compare and order fractions whose denominators are all multiples of the same number	compare and order fractions, including fractions >1
		COMPARIN	G DECIMALS		
Year 1	Year 2	Year 3	Year 4 compare numbers with the same number of decimal places up to two decimal places	Year 5 read, write, order and compare numbers with up to three decimal places	Year 6 identify the value of each digit in numbers given to three decimal places
		ROUNDING INCL	UDING DECIMALS		
			round decimals with one decimal place to the nearest whole number	round decimals with two decimal places to the nearest whole number and to one decimal place	solve problems which require answers to be rounded to specified degrees of accuracy

	EQ	UIVALENCE (INCLUDING FRACTIO	ONS, DECIMALS AND PERCENT	AGES)	
	write simple fractions e.g. $\frac{1}{2}$ of 6 = 3 and recognise the equivalence of $\frac{2}{4}$ and $\frac{1}{2}$.	recognise and show, using diagrams, equivalent fractions with small denominators	recognise and show, using diagrams, families of common equivalent fractions	identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths	use common factors to simplify fractions; use common multiples to express fractions in the same denomination
			recognise and write decimal equivalents of any number of tenths or hundredths	read and write decimal numbers as fractions (e.g. $0.71 = \frac{71}{100}$)	associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. $\frac{3}{8}$)
				recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents	
			recognise and write decimal equivalents to $1/4$; $1/2$; $3/4$	recognise the per cent symbol (%) and understand that per cent relates to "number of parts per hundred", and write percentages as a fraction with denominator 100 as a decimal fraction	recall and use equivalences between simple fractions, decimals and percentages, including in different contexts.
		ADDITION AND SUBTR	ACTION OF FRACTIONS		
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
		add and subtract fractions with the same denominator within one whole (e.g. $\frac{5}{7} + \frac{1}{7}$ = $\frac{6}{7}$)	add and subtract fractions with the same denominator	add and subtract fractions with the same denominator and multiples of the same number recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a mixed number (e.g. $\frac{2}{5}$ + $\frac{4}{5} = \frac{6}{5} = \frac{1}{5}$)	add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions
		MULTIPLICATION AND	DIVISION OF FRACTIONS	<u> </u>	
				multiply proper fractions and mixed numbers by whole numbers, supported by	multiply simple pairs of proper fractions, writing the answer in its simplest form (e.g. $\frac{1}{4} \times \frac{1}{2}$ =

				materials and diagrams	¹ / ₈)
					multiply one-digit numbers with up to two decimal places by whole numbers
					divide proper fractions by
					whole numbers (e.g. ${}^{1}/{}_{3} \div 2 = {}^{1}/{}_{6}$
)
		MULTIPLICATION AND	DIVISION OF DECIMALS		
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
					multiply one-digit numbers with up to two decimal places by whole numbers
			find the effect of dividing a		multiply and divide numbers by
			one- or two-digit number		10, 100 and 1000 where the
			by 10 and 100, identifying the value of the digits in the		answers are up to three decimal places
			answer as ones, tenths and hundredths		
					identify the value of each digit to three decimal places and
					multiply and divide numbers by 10, 100
					and 1000 where the answers
					are up to three decimal places
					associate a fraction with division and calculate decimal
					fraction equivalents (e.g. 0.375)
					for a simple fraction
					(e.g. ³ / ₈)
					use written division methods in
					cases where the answer has up to two decimal places
		PROBLEN	1 SOLVING	l	
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
		solve problems that involve all	solve problems involving	solve problems involving	
		of the above	increasingly harder fractions to calculate	numbers up to three decimal places	
				places	<u> </u>

quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number	
solve simple measure and money problems involving fractions and decimals to two decimal places.	solve problems which require knowing percentage and decimal equivalents of $1/2^{1}/4^{1}/5^{2}/5^{4}/5^{3}$ and those with a denominator of a multiple of 10 or 25.

Ratio and Proportion

Statements	only appear in Year 6 but s	should be connected to prev	ious learning, particularly fra	actions and multiplication and	division
					Year 6
					solve problems involving
					the relative sizes of two
					quantities where missing
					values can be found by
					using integer
					multiplication and division
					facts
					solve problems involving
					the calculation of
					percentages [for example,
					of measures, and such as
					15% of 360] and the use
					of percentages for
					comparison
					solve problems involving
					similar shapes where the
					scale factor is known or
					can be found
					solve problems involving
					unequal sharing and
					grouping using knowledge
					of fractions and multiples.

<u>Algebra</u>

		EQUA	TIONS		
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as $7 = \Box - 9$ (copied from Addition and Subtraction)	recognise and use the inverse relationship between addition and subtraction and use this to check calculations and missing number problems. (copied from Addition and Subtraction)	solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction. (copied from Addition and Subtraction) solve problems, including missing number problems, involving multiplication and		use the properties of rectangles to deduce related facts and find missing lengths and angles (copied from Geometry: Properties of Shapes)	express missing number problems algebraically
		division, including integer scaling (copied from Multiplication and Division)			
	recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100 (copied from Addition and Subtraction)				find pairs of numbers that satisfy number sentences involving two unknowns
represent and use number bonds and related subtraction facts within 20 (copied from Addition and Subtraction)					enumerate all possibilities of combinations of two variables
		FORM	IULAE		
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
			Perimeter can be expressed algebraically as 2(a + b) where a and b are the dimensions in the same unit. (Copied from NSG measurement)		use simple formulae recognise when it is possible to use formulae for area and volume of shapes (copied from Measurement)
		SEQU	ENCES		
sequence events in chronological order using language such as: before and	compare and sequence intervals of time (copied from Measurement)				generate and describe linear number sequences
after, next, first, today, yesterday, tomorrow, morning, afternoon and evening (copied from Measurement)	order and arrange combinations of mathematical objects in patterns (copied from Geometry: position and direction)				

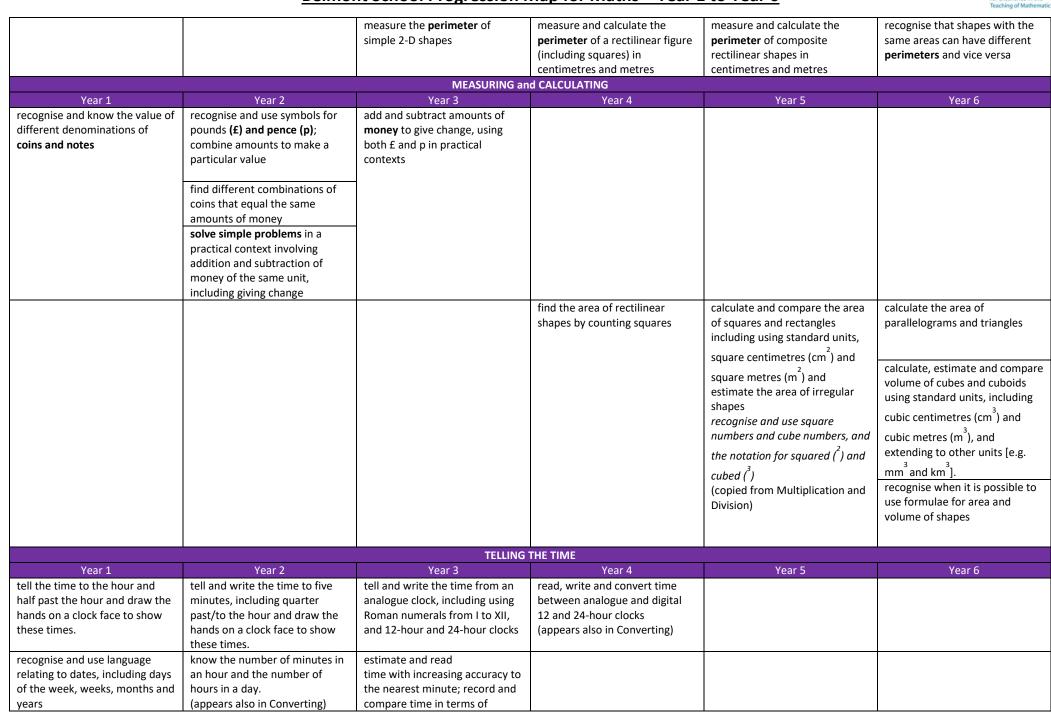

Measurement

		COMPARING A	ND ESTIMATING		
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
 compare, describe and solve practical problems for: * lengths and heights [e.g. long/short, longer/shorter, tall/short, double/half] * mass/weight [e.g. heavy/light, heavier than, lighter than] * capacity and volume [e.g. full/empty, more than, less than, half, half full, quarter] * time [e.g. quicker, slower, earlier, later] 	compare and order lengths, mass, volume/capacity and record the results using >, < and =		estimate, compare and calculate different measures, including money in pounds and pence (also included in Measuring)	calculate and compare the area of squares and rectangles including using standard units, square centimetres (cm ²) and square metres (m ²) and estimate the area of irregular shapes (also included in measuring) estimate volume (e.g. using 1 cm ³ blocks to build cubes and cuboids) and capacity (e.g. using water)	calculate, estimate and compare volume of cubes and cuboids using standard units, including centimetre cubed (cm ³) and cubic metres (m ³), and extending to other units such as mm ³ and km ³ .
sequence events in chronological order using language [e.g. before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening]	compare and sequence intervals of time	compare durations of events, for example to calculate the time taken by particular events or tasks			
		estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes, hours and o'clock; use vocabulary such as a.m./p.m., morning, afternoon, noon and midnight (appears also in Telling the Time)			
			d CALCULATING		
Year 1 measure and begin to record the following: * lengths and heights * mass/weight * capacity and volume * time (hours, minutes, seconds)	Year 2 choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels	Year 3 measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (l/ml)	Year 4 estimate, compare and calculate different measures, including money in pounds and pence (appears also in Comparing)	Year 5 use all four operations to solve problems involving measure (e.g. length, mass, volume, money) using decimal notation including scaling.	Year 6 solve problems involving the calculation and conversion of units of measure , using decimal notation up to three decimal places where appropriate (appears also in Converting)

National Centre

for Excellence in the

		seconds, minutes, hours and o'clock; use vocabulary such as a.m./p.m., morning, afternoon, noon and midnight (appears also in Comparing and Estimating)	solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days	solve problems involving converting between units of time	
			(appears also in Converting)		
	Year 2		ERTING	Maran E	
Year 1	know the number of minutes in an hour and the number of hours in a day. (appears also in Telling the Time)	Year 3 know the number of seconds in a minute and the number of days in each month, year and leap year	Year 4 convert between different units of measure (e.g. kilometre to metre; hour to minute)	Year 5 convert between different units of metric measure (e.g. kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre)	Year 6 use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to three decimal places
			read, write and convert time between analogue and digital 12 and 24-hour clocks (appears also in Converting)	solve problems involving converting between units of time	solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate (appears also in Measuring and Calculating)
			solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days (appears also in Telling the Time)	understand and use equivalences between metric units and common imperial units such as inches, pounds and pints	convert between miles and kilometres

Geometry: Properties of Shape

IDENTIFYING SHAPES AND THIER PROPERTIES								
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
 recognise and name common 2- D and 3-D shapes, including: * 2-D shapes [e.g. rectangles (including squares), circles and triangles] * 3-D shapes [e.g. cuboids (including cubes), pyramids and spheres]. 	 identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces identify 2-D shapes on the surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid] 		identify lines of symmetry in 2-D shapes presented in different orientations	identify 3-D shapes, including cubes and other cuboids, from 2-D representations	recognise, describe and build simple 3-D shapes, including making nets (appears also in Drawing and Constructing) illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius			
		DRAWING AND	CONSTRUCTING					
		draw 2-D shapes and make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them	complete a simple symmetric figure with respect to a specific line of symmetry	draw given angles, and measure them in degrees ($°)$	draw 2-D shapes using given dimensions and angles recognise, describe and build simple 3-D shapes, including making nets (appears also in Identifying Shapes and Their Properties			
		COMPARING AI	ND CLASSIFYING					
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
	compare and sort common 2-D and 3-D shapes and everyday objects		compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes	use the properties of rectangles to deduce related facts and find missing lengths and angles distinguish between regular and	compare and classify geometric shapes based on their properties and sizes and find unknown angles in any triangles, quadrilaterals, and regular polygons			
				irregular polygons based on reasoning about equal sides and angles				
	ANGLES							
		recognise angles as a property of shape or a description of a turn		know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles				

	identify right angles, recognise that two right angles make a half-turn, three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less than a right angle	identify acute and obtuse angles and compare and order angles up to two right angles by size	 identify: angles at a point and one whole turn (total 360°) angles at a point on a straight line and ½ a turn (total 180°) other multiples of 90° 	recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles
	identify horizontal and vertical lines and pairs of perpendicular and parallel lines			

Geometry: Position and Direction

	POSITION, DIRECTION AND MOVEMENT							
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
describe position, direction and movement, including half, quarter and three-quarter turns.	use mathematical vocabulary to describe position, direction and movement including		describe positions on a 2-D grid as coordinates in the first quadrant	identify, describe and represent the position of a shape following a reflection or translation,	describe positions on the full coordinate grid (all four quadrants)			
	movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise)		describe movements between positions as translations of a given unit to the left/right and up/down plot specified points and draw sides to complete a given polygon	using the appropriate language, and know that the shape has not changed	draw and translate simple shapes on the coordinate plane, and reflect them in the axes.			
	PATTERN							
	order and arrange combinations of mathematical objects in patterns and sequences							

Statistics

INTERPRETING, CONSTRUCTING AND PRESENTING DATA					
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	interpret and construct	interpret and present data	interpret and present	complete, read and interpret	interpret and construct pie
	simple pictograms, tally	using bar charts, pictograms	discrete and continuous data	information in tables,	charts and line graphs and
	charts, block diagrams and	and tables	using appropriate graphical	including timetables	use these to solve problems
	simple tables		methods, including bar charts and time graphs
